Thanks, Pat. We've been working on the details of our technical submittal to you, and expect to have it to EPA well before the end of the month. Please let me know if you think it prudent to execute a short extension to the Tolling Agreement; in light of the need to get others to approve the final language, we both may need some additional time.

Michael

Pat and Bill,

Following up on our discussions last week, we spoke with Global and its engineers regarding submittal of the supplemental measures work plan. We have confirmed that submittal of the work plan by October 31, as requested by Bill, is feasible. We will send the work plan as soon as it is prepared. We look forward to your comments on the CD.

Thanks,
Matt
